

Removal plan 2018

Landratsamt Enzkreis / Waste management company

December 2017

The Waste-App

Waste sorting systems:

1. Residual waste bin for non-recyclable garbage
2. Organic waste bin for all compostable from kitchen and garden waste
3. Green bin in the system "flat" and "round" for recyclable old material

The bins must be placed clearly ready for emptying from 6 a.m. If in doubt, an allocation is assumed. A microchip detects the emptying frequency of residual and organic waste. Trash bags placed in addition to the tons will not be accepted. If the garbage can not be emptied on the usual day, emptying usually takes place the next day. Please leave the ton provided.

The **garbage fees** are the sum of the collection amount (number of emptying) and an annual amount which depends on the number of persons in household. For the compost bin, an additional annual amount will be charged. The compost bin is compulsory, unless all organic waste is composted by yourself. The number of containers and their sizes can be chosen freely. According to the waste management rules, **all old substances, organic waste and residual waste have to be separated.**

In the **Green bin** is first collected the fraction "flat" (paper, cardboard, plastic foil and polystyrene) and one day later the fraction "round" (glass, cans, composite material, aluminum and PVC cups and bottles). Cartons or bundles placed aside the Green bins can not be taken for technical reasons.

If moving in to a flat or house, **bins have to be ordered (in written form)** by the owners or renter at the District Office Enz, waste management company PO Box 101080, 75110 Pforzheim, Fax: 07231-3089446.

- Removal plans in **Plan odvoza 2018**
Croatian, Turkish
and Italian are **Çöp tasfiye planı 2018**
available at the
town halls or in the
Enzkreis district **Programma di ritiro 2018**
office.
- Kod Landratsamta i u opcinama mozete dobiti plan zu odvoz smeca na hrvatskom jeziku
- Çöplerin toplanacağı tarihler hakkında Türkçe bilgi Enz Bölgesindeki belediyelerden veya kaymakamlıktan temin edilebilir
- I piani della rimozione dei rifiuti sono a disposizione ai municipi e all' ufficio circondario Enz

Emptying frequency, emptying amounts; annual fees

waste	bin	emptying amount in Euro per discharge	Emptying frequency	comment
residual waste	120 liter MGB(grey)	4,80	as needed, max. every 2 weeks	
	240 liter MGB (grey)	8,35		
	660 liter MGB (grey)	30,40	weekly, biweekly, three-weekly etc.	
1,1 m ³ MGB (grey)	42,20			
bio waste	60 liter MGB I (brown)	1,00	as needed, max. every 2 weeks	
	120 liter MGB (brown)	1,50		
	240 liter MGB (brown)	2,20		
recyclable material „flat“ and „round“	240 liter MGB (green)	--	four weekly	fraction „round“ one day after „flat“
recyclable Material „flat“	660 liter MGB (green)	--	biweekly or four-weekly	please specify the frequency of emptying when ordering bins o
	1,1 m ³ MGB (green)	--		

For the exchange of bins, a fee of 23.00 Euro per real estate will be charged.

Annual basic amounts

1 person household:	45,60 €	60 liter organic waste bin:	18,00 €
2 person household:	66,00 €	120 liter organic waste bin:	24,00 €
3 person household:	81,60 €	240 liter organic waste bin:	42,00 €
4 person household:	92,40 €		
5 and more persons:	101,40 €		

On **return or exchange** of waste containers, please indicate the booking label (waste tax information) and the number of the container (on residual waste and organic waste bins). Defect bins are replaced free of charge. Please write to: abfallwirtschaft@enzkreis.de or Tel. 07231-354838

The **removal deadlines** apply to waste bins up to 240 liters. Dates of discharge for bins/containers of 660 liters or 1.1 m³ can be requested directly at the waste management company SUEZ Süd GmbH, Tel. 07043 939248. They can also be found under www.entsorgung-regional.de.

Bulky waste disposal

Bulky waste is waste without any usable shares which does not fit into the house garbage: e.g. armchairs, sofas, mattresses, furniture, carpets. No waste from renovations. Serviceable items can be given away or exchanged via the bulky Exchange under www.entsorgung-regional.de.

Self delivery on all 11 recycling yards in the Enzkreis:

up to 1 m³: 6.00 €
up to 2 m³: 12.00 €
up to 3 m³: 18.00 €

Pick-up on request up to 3 m³ for a fee of 51.00 Euro per pickup at two fixed dates in the year (see calendar); request (only in written form) to be put not longer than ten days before the pick-up with a disposal check, which is available at all town halls or can be ordered online at www.entsorgung-regional.de.

Disposal of electric appliances

Free of charge delivery only at the disposal site Hamberg in Maulbronn:

- Large electrical appliances such as washing machines, dishwashers, dryers, cookers, refrigerators, electric heaters, air conditioners
- Screens such as TV and computer monitors
- Fluorescent lamps and energy saving lamps

Free of charge Delivery at all recycling centers:

- Small electrical appliances such as vacuum cleaners, ironing machines, toasters, fryers, watches, microwave ovens
- IT and other electronic devices such as computers (no monitors), radios, fax machines, telephones, cell phones

Pick-up on request

On reimbursement of transportation costs (10 € per unit for large electrical appliances, 8 € per unit for screens; payment at the Town Hall), the devices are picked on 11 collection dates per year (disposal checks in the town halls). In winter collection dates may be postponed due to traffic reasons; customers will be informed about an alternative date.

Pollutant waste from households

Twice a year, pollutants from households (e.g. paints, varnishes, solvents, batteries, fluorescent tubes, photographic chemicals, etc.) are collected free of charge by a special truck in all communities. In addition, collections take place on 10 Saturdays in different municipalities. **Used oil** will not be accepted because the stores are obliged to take back the amount that was purchased.

Batteries and accumulators must be taken back by the shops. Moreover, containers for batteries are available in town halls, schools and recycling yards.

Small quantities of pollutants from companies

Small quantities of pollutants from painters, plasterers, doctors, pharmacists, forestry offices etc. may be disposed via the company SUEZ Süd GmbH, Tel. 07043 939-400.

Recycling yards

The Enzkreis runs recycling yards in Birkenfeld, Fritzlheim, Ispringen, Kelttern, Maulbronn, Mühlacker, Neulingen, Niefern, Königsbach, Straubenhardt and Wurmberg, which accept recyclable material and bulky waste: Metal, paper, aluminum, batteries, CDs, DVDs, small electrical appliances, windows, glass, wood, cardboard, clothing, cork, plastic films, plastic bottles and cups, PU foam, cans, garbage, styro-foam, toner cartridges, ink cartridges, composite packaging. Mineral and glass wool, roofing and asbestos-containing materials can be disposed only at the disposal site in Maulbronn, as well as TV sets, monitors and large electrical appliances. All waste materials must be cleaned and packaging must be emptied.

Fees:

Wood: for each cubic meter	6.00 €
styrofoam: for each cubic meter	13.00 €
bulky waste: for each cubic meter	6.00 €
<i>(Wood, styrofoam, bulky waste max. each 3 m³)</i>	
Windows, casements, window panels, doors:	
to 1 m ² each	3.00 €
over 1 m ² each	4.50 €
Construction waste:	
and every 100 liters	13.50 €

Opening times

- Green columns in the calendar.
- All opening times and further information can be found in the brochure available in all municipalities and recycling yards
- www.entsorgung-regional.de.

Opening times of the disposal site and recycling yard Hamberg 75433 Maulbronn, Hamberg 4

Monday to Friday: 7.30 - 11.45 h
12.45 - 15.45 h
Saturday: 8.00 - 12.15 h
Telephone: 07043-6960

Delivery of waste containing asbestos, mineral and glass wool only from Monday to Friday

Composting

If you compost yourself, **information** is available in leaflets and brochures. **Common composting in multi-family houses** is consulted by the Landratsamt.

Garden waste

In Enzkreis there are **chaff places** for the toll-free disposal of cut tree and bush up to 15 cm in diameter and for cut grass, flowers and foliage residues. Compostable kitchen waste is not accepted; this belongs either to the compost bin or on the compost heap. It is important to separate the wood-containing tree and shrub-section from the rest of garden waste.

Construction waste disposal

Mineral waste such as tiles, ceramic tile, masonry, etc. can be disposed in recycling waste center Natursteinwerke im Nordschwarzwald NSN GmbH & Co. KG in Kelttern (Tel. 07231-352303) and Mühlacker Enzberg (Tel. 07041-95080), EBRD in Bretten (Tel. 07252-77515), BRP in Pforzheim - only small quantities - (07231-52575) RBW Wiernsheim GmbH & Co. in Wiernsheim (Tel.07044-6946).

Non-recyclable mineral waste such as gypsum, plasterboard or aerated concrete blocks must be brought to the disposal site in Maulbronn or in small quantities to the recycling yards (13.50 € for 100 liter).

Waste consultancy for schools

Teacher guidelines, lessons, tours of disposal facilities, application forms are available on www.entsorgung-regional.de

Waste consulting for households and businesses

Telephone: 07231 354838

Internet: All waste disposal information is available on the Internet, as well as various email forms E-Mail and current information: www.entsorgung-regional.de.
